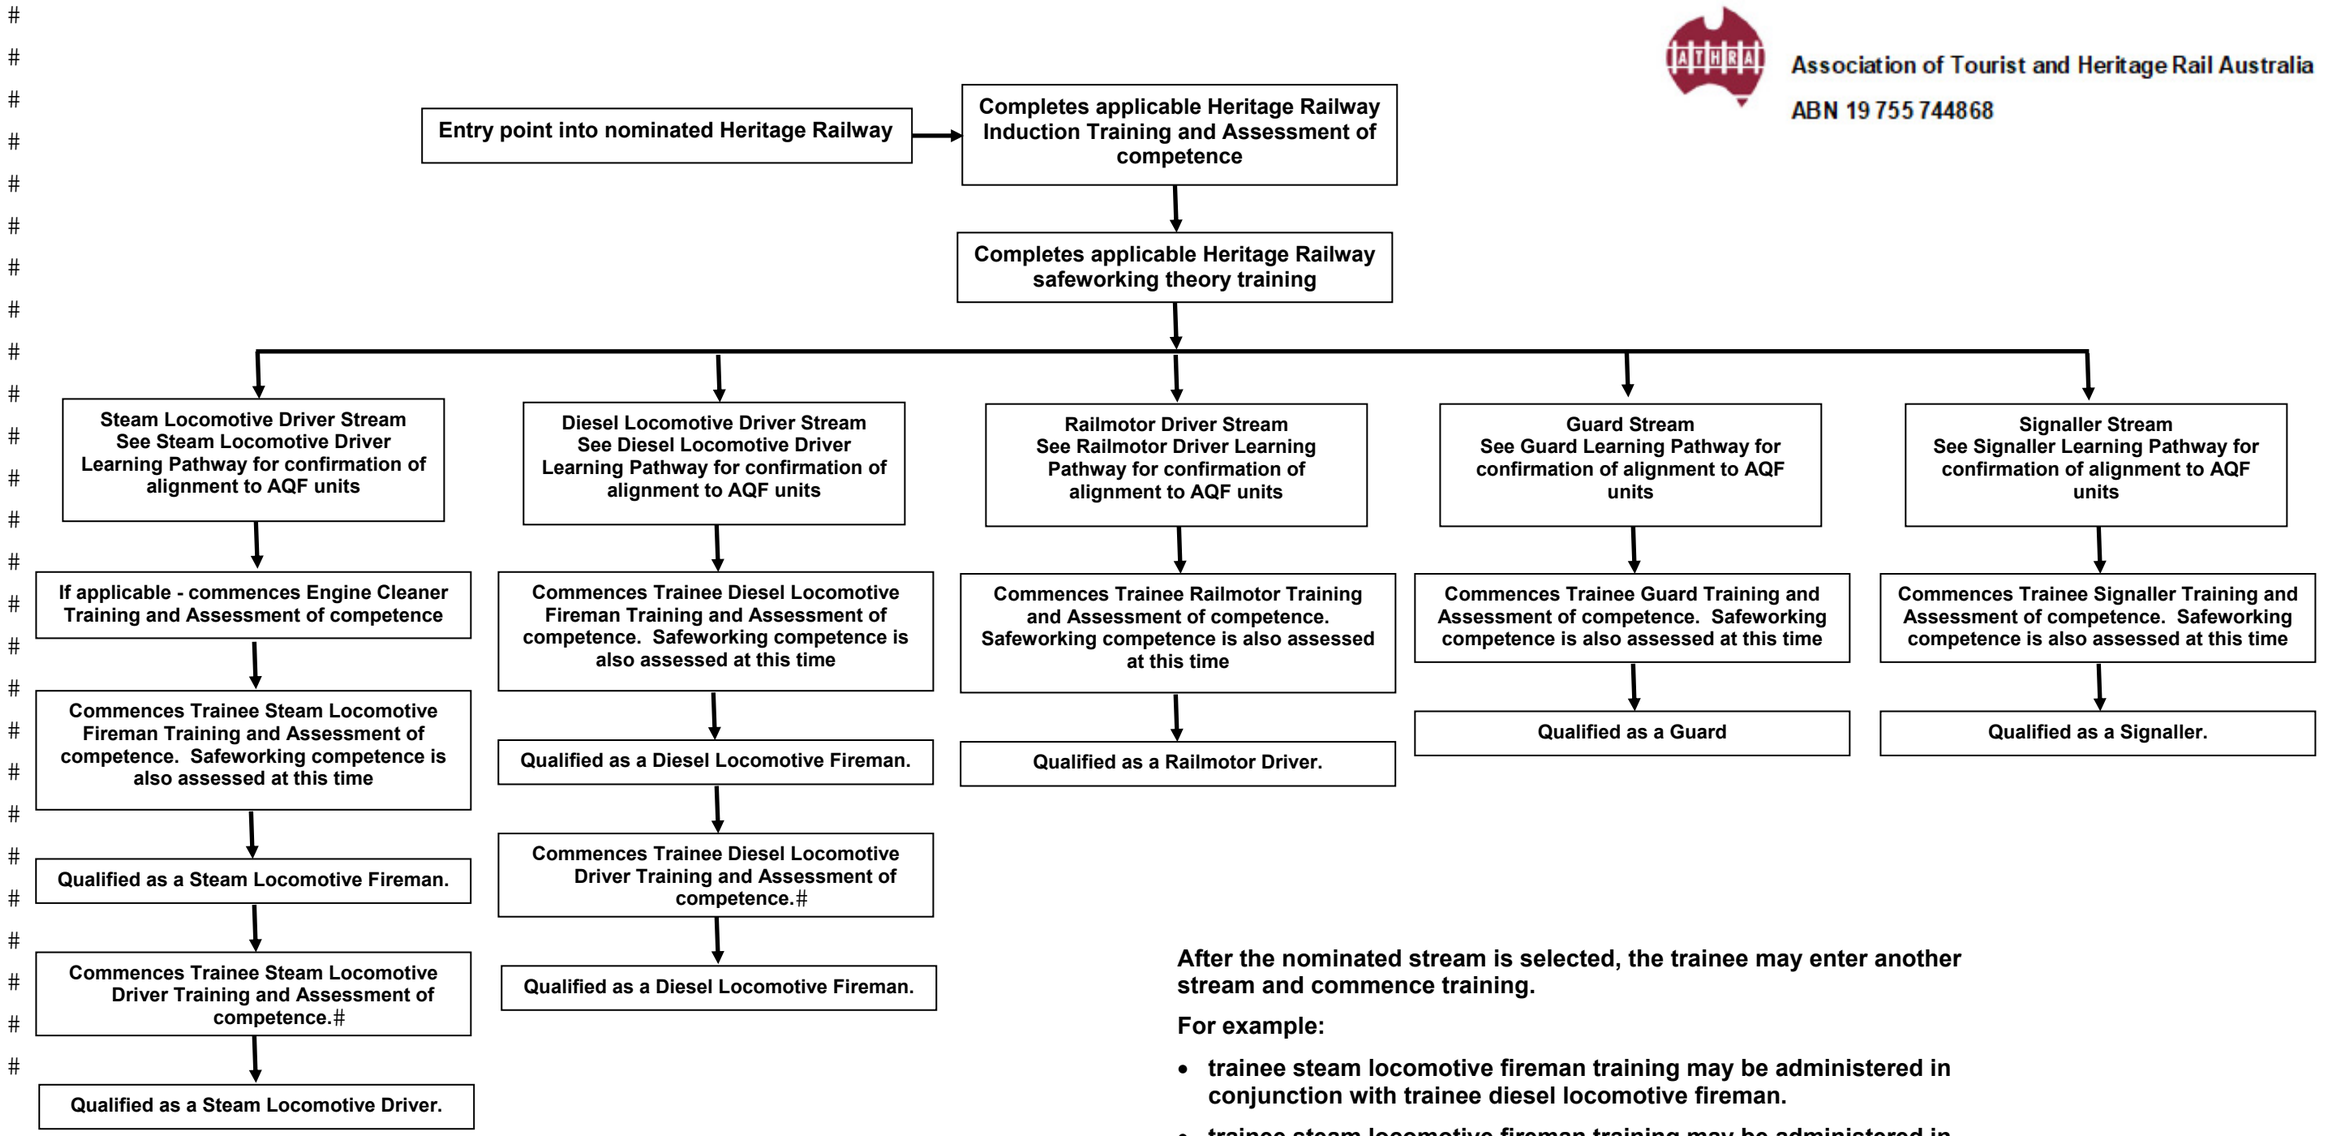
Association of Tourist and Heritage Rail Australia

ABN 19 755 744868



After the nominated stream is selected, the trainee may enter another stream and commence training.

For example:

- **trainee steam locomotive fireman training may be administered in conjunction with trainee diesel locomotive fireman.**
- **trainee steam locomotive fireman training may be administered in conjunction with guard and /or signaller training.**

Please refer to the applicable Learning Pathway for each operational stream.

Each Learning Pathway gives detailed training and assessment strategies for each safeworking role and including the alignment to each Australian Qualification Framework (AQF) competency unit(s).
