

FINAL DIESEL LOCOMOTIVE DRIVER LEARNING PATHWAY VERSION 1.0

Entry Point	Training Course(s)	Description
Trainee Diesel Locomotive Fireman schedule of training events		
<ul style="list-style-type: none"> TLIF1001: Follow work health and safety procedures TLIF2080: Safely access the rail corridor TLIF2010: Apply fatigue management strategies TLIF2018: Operate fire fighting equipment TLID1001: Shift materials safely using manual handling methods 	Induction Training Course (See Note 1 below)	Off and On Job Training followed by an assessment of competence
<ul style="list-style-type: none"> TLIF3058: Apply safeworking rules and regulations to rail functions TLIC2078: Identify and respond to signals and trackside signs 	Safeworking Training Course (See Note 2 below)	Off and On Job Training followed by an assessment of competence
<ul style="list-style-type: none"> TLIC4074: Shunt couple and uncouple rail vehicles TLIE2007: Use communication systems 	Shunting Procedures Training Course (See Note 2 below)	Off and On Job Training and a Period of On Job Application prior to Competency Assessment.
<p>After successfully completing the theory content for safeworking and shunting rollingstock, the person will need to be assessed competent in these tasks during their training for the applicable competency stream they have chosen to enter which could be, but not limited to:</p> <ul style="list-style-type: none"> Trainee guard and/or signaller Trainee steam locomotive fireman Trainee diesel locomotive second person Trainee railmotor driver <p>Progression into the above listed streams is dependent on the nominated heritage railway operational requirements.</p>		
Trainee Diesel Fireman schedule of training events		
<ul style="list-style-type: none"> TLIB3123: Apply awareness of motive power unit TLIL3039: Assist with train operations TLIB4076: Inspect and prepare a heritage motive power unit TLIC3029: Stable a heritage motive power unit TLIC3072: Conduct duties of a heritage locomotive assistant 	Trainee Diesel Locomotive Fireman Course	Off and On Job Training and a Period of On Job Application prior to Competency Assessment.
<p>Assessed competent as a diesel locomotive fireman, operating a diesel locomotive(s) applicable to the nominated heritage railway. May then enter the trainee diesel locomotive driver training scheme after a period of continued operations conducting diesel locomotive fireman's tasks. This is not an automatic progression. Progression into the trainee diesel locomotive driver training scheme is dependent on the nominated heritage railway operational requirements.</p> <p>If applicable, and different types of diesel traction apply to the heritage railway, the qualified diesel locomotive fireman must be assessed competent preparing, firing and stabling each type of different diesel locomotive that applies.</p>		
Trainee Diesel Locomotive Driver schedule of training events		
<ul style="list-style-type: none"> TLIB3019: Test train braking system TLIB4079: Conduct a general train examination TLIC3028: Operate and monitor a heritage motive power unit TLIC4019: Drive train to operation requirements TLIC4023: Operate train with due consideration of route conditions TLIF4021: Respond to emergencies and abnormal situations when driving a train 	Diesel Locomotive Driver Training Course	Off and On Job Training and a Period of On Job Application prior to Competency Assessment.
<p>Assessed competent as a diesel locomotive driver, operating a diesel locomotive(s) applicable to the nominated heritage railway operating the type and class of diesel locomotive utilised during the assessment process.</p> <p>Has also been assessed competent to conduct General Train Inspections on rolling stock</p> <p>If applicable, and different types of diesel traction apply to the heritage railway, the qualified driver must be assessed competent monitoring and operating each different type of diesel locomotive that applies.</p>		

Notes:

- This Diesel Locomotive Driver Learning Pathway provides an example progression for volunteer employees commencing operational tasks on a heritage railway. It is recognised that each heritage railway may apply specific operational tasks before a person is permitted to enter trainee diesel locomotive fireman training. For example, before commencing trainee diesel locomotive driver training, the heritage railway volunteer/employee may need to complete training and assessment for:
 - Conducting engine cleaning tasks
 - Acting in the role of passenger guard and/or signaller
 - Conducting fire patrols.
- Safeworking and conducting shunting operations is a mandatory pre-requisite prior to entering the trainee diesel locomotive training course.
- Please refer to the following Learning Pathways for additional information for the following operational streams:
 - Guard/signaller Operations
 - Steam Locomotive Operations
 - Railmotor Operations.
